How to Play

Welcome! You're about to lead your players on an adventure through the Exodus story. **No experience with D&D or tabletop games is needed.** Everything you need is right here.

What Is This?

You, the **Dungeon Master (DM)**, describe the world. The players tell you what their characters do. When something is tricky, they roll dice to see if they succeed.

What You Need

- This printed guide
- Two regular dice (six-sided, from any board game)
- A printed character sheet for each player (pre-filled sheets at the back!)
- Small tokens: coins, checkers, beads, candies, or game pieces (about 10 per player)
- Optional: snacks (matzah!), small toys as game pieces for the map

No Writing Required!

This game is designed to be played **without any writing**. Character sheets come pre-filled. Players track hearts and special ability usage by **moving tokens on and off circles** on their sheet. Put a coin on each heart circle at the start — remove a coin when hurt, put it back when healed.

Your Job as DM

1. Read the story sections out loud (shown in *gold boxes*)
2. Ask the players “What do you do?”
3. When they try something hard, have them roll dice
4. Describe what happens next

DM Tip: The #1 rule: **Say yes** as much as you can. If a player wants to do something creative, let them try! The goal is fun and excitement, not perfect rules.

Tips for Young Players

- **Keep it moving.** Short and exciting beats long and detailed.
- **Let them be heroes.** They should succeed most of the time.
- **Use voices and sound effects.** Kids love a silly Pharaoh voice or water-splitting sounds.
- **For early readers:** You can read everything aloud. They only need to know their three numbers and their special ability.
- **Use the map!** Put a shared token on the map and move it as you progress through chapters.
- **Take breaks.** Play 2–3 chapters per session, or do the whole thing over Chag.

How Challenges Work

This is the most important thing to understand as DM. Here's the flow:

1. **You read the gold box out loud.** Each gold box ends with a question that hands the action to the players — something like “What do you do?”

2. Each player tells you what they want to do — in their own words. They might say “I want to punch the lion!” or “Can I sneak around the back?” or “I sing a song to keep everyone calm.” Anything goes!

3. YOU decide what ability it uses and how hard it is. Based on what they described, you tell them: “That sounds like a STRONG action — roll STRONG, Medium!” or “That’s WISE, and it’s Easy — roll WISE!” The player rolls 2 dice + their bonus for that ability and you tell them if they beat the target (see the difficulty table in The Rules below).

4. You describe what happens. If they succeeded, describe something awesome. If they failed, describe what went wrong — but keep it fun, not punishing.

The **bullet-point lists** under each challenge in the adventure are suggestions **for you, the DM** — not a menu you read to the players. They’re there to help you quickly match a player’s idea to an ability and difficulty. But if a player comes up with something creative that isn’t on the list, just decide which ability fits and pick a difficulty. If someone wants to ride the giant frog during the frog plague — sure, that’s QUICK, and it’s hilarious, so maybe make it Easy.

Go around the table so everyone gets a turn: “Okay, the hail is crashing down — Sarah, what does your Scout do? Great, roll! Awesome. David, what about your Builder?” Go around the table — each player declares what they do and rolls immediately before moving to the next player. After all rolls are complete, the Dungeon Master puts it all together and describes what happened (make it fun, use improv!). If a player is stuck, you can offer a hint: “Well, you’re really strong — maybe you could try lifting the cart?” But let them drive the action whenever possible.

If a player wants to do something that doesn’t need a roll — like “I hug my friend” or “I look at the sky” — just let it happen. Rolls are only for things where failure is possible and interesting.

The Rules

All the rules, in one place.

Rolling Dice

When a player tries something difficult, they roll **2 dice** and add them together, then add their bonus.

Roll = 2 dice + ability bonus (found on your character sheet)

Difficulty	Number to Beat	When to Use
Easy	5+	A little tricky
Medium	7+	A real challenge
Hard	9+	Really tough
Epic!	11+	Nearly impossible

Three Abilities

Every character has three stats, each with a bonus from **+0** to **+3**.

■ STRONG (Koach)	Lifting, pushing, fighting, carrying
■ WISE (Chochmah)	Knowing, noticing, healing, convincing
■ QUICK (Mehirut)	Running, dodging, sneaking, climbing

Hearts

Each character has **5 Hearts** (tracked with tokens on your sheet). Lose 1 when hurt. At 0 hearts, you're knocked out and a friend must help you. A Healer restores 2 hearts; resting restores all.

Teamwork Bonus

When one player helps another, the roller gets **+2**. The player who is rolling gets the bonus when another player describes how their character is assisting before the roll. Encourage teamwork!

Special Abilities

Each character has a **Special Ability** (labeled "Special" on the character sheet) usable **once per chapter**. No roll needed — it just works! Track usage by moving a token onto the chapter circle on your sheet.

That's It!

Roll 2 dice + bonus. Beat the target. Help friends for +2. Use your special once per chapter. Everything else is storytelling.

The Map of Your Journey

Place this map in the center of the table. Use a shared token (coin, game piece, candy) to mark your progress. Move it to each numbered location as you play through the chapters! **Turn the next page sideways to see the full map.**

Follow the numbers! Each number = one chapter.
Use a shared token to mark your progress.
Move it to each numbered location as
as you play through the chapters!

Choose Your Character

Each player picks a character type. **Multiple players can choose the same type!** If two players both want to be Scouts — great, they're a team of scouts. Pick a name for your character (just say it aloud, no need to write it down).

THE BUILDER (Boneh)

You've spent years building Pharaoh's cities. You're incredibly strong and know how structures work.

STRONG: +3	WISE: 0	QUICK: 0	Hearts: 5
-------------------	----------------	-----------------	------------------

Special: Mighty Lift — Once per chapter, lift, break, or move something incredibly heavy. No roll needed.

Good at: Smashing walls, carrying people, building things, winning fights.

THE HEALER (Rofeh)

You know herbs, remedies, and how to care for people. The community depends on you.

STRONG: 0	WISE: +3	QUICK: 0	Hearts: 5
------------------	-----------------	-----------------	------------------

Special: Healing Touch — Once per chapter, restore up to 2 lost hearts to any player, including yourself. No cost to the Healer. No roll needed.

Good at: Fixing injuries, noticing illness, knowing about plants and medicine.

THE SCOUT (Tzofeh)

You're the fastest and sneakiest person around. You can get in and out of anywhere.

STRONG: +1	WISE: 0	QUICK: +2	Hearts: 5
-------------------	----------------	------------------	------------------

Special: Shadow Step — Once per chapter, become invisible for one action. Sneak past anything. No roll needed.

Good at: Sneaking, running, climbing, dodging, spotting danger first.

THE SHEPHERD (Ro'eh)

You've cared for flocks in the fields. You're brave, patient, and animals trust you.

STRONG: +1	WISE: +1	QUICK: +1	Hearts: 5
-------------------	-----------------	------------------	------------------

Special: Animal Friend — Once per chapter, calm any animal or ask an animal for help. No roll needed.

Good at: A bit of everything! Calming people, navigating outdoors, bravery.

THE STORYTELLER (Mesaper)

You carry the stories of our people. Your words inspire courage and hope in others.

STRONG: 0	WISE: +2	QUICK: +1	Hearts: 5
------------------	-----------------	------------------	------------------

Special: Words of Courage — Once per chapter, inspire everyone: all players get +1 on their next roll.

Good at: Convincing people, remembering info, inspiring friends, riddles.

The Adventure: Escape from Egypt

Seven chapters. Play them all in one session (~2.5 hours), or split across multiple sittings. Gold boxes are read aloud. Tips marked “DM Tip” are just for you to use in the improv telling.

Chapter 1: Life in Mitzrayim

Move your token to location 1 on the map!

The sun beats down on the land of Mitzrayim — Egypt. You live here, in a small village near one of Pharaoh's great building projects. Every day, your people work hard — making bricks, carrying stones. Life is not easy, but your community sticks together. Tonight, as the sun sets, you gather with your neighbors around a small fire... So, tell us — who are you? What's your name, what do you do, and what do you like to do when you're not working?

Scene 1: Introductions

Go around the table. Each player says their character's **name**, **job** (character type), and **one thing they like to do** when not working. Help younger players: “You're a Scout — super fast and sneaky. What's your name? What do you do for fun?”

Scene 2: The Wall

An Egyptian taskmaster approaches. “You! Israelites! Pharaoh demands that the new wall be finished by sundown. Get to work!” He cracks his whip. How do you help build the wall?

Challenge — Build the Wall: Each player describes how they help and rolls (Easy — target 5):

- Builders: STRONG • Scouts: QUICK (carry water) • Storytellers: WISE (encourage workers)
- Healers: WISE (tend blisters) • Shepherds: STRONG • Anyone can help a friend for +2

Describe something awesome for high rolls. The wall gets built either way.

Scene 3: The Taskmaster's Whip

The taskmaster isn't satisfied. “Faster!” He raises his whip toward an old man who stumbled. What do you do?

Action Challenge: The players must react!

- Jump in front of the old man: QUICK (Medium — 7) to dodge the whip while shielding him
- Distract the taskmaster: WISE (Medium — 7) to say something clever
- Grab the whip: STRONG (Hard — 9) to catch it mid-swing (very heroic if they succeed!)
- If they fail, the old man is okay but players who failed their roll lose 1 heart from the whip

DM Tip: *Let them feel the injustice. This motivates the whole story.*

Scene 4: The Whisper

That night by the fire, an old woman whispers: “I've heard something. A man named Moshe has returned from the desert. They say Hashem sent him. They say he's going to Pharaoh's palace.

Something is about to change.” What do you think about that? Do you believe her?

Chapter 2: A Voice in the Desert

Move your token to location 2 on the map!

News spreads like wildfire: Moshe and Aharon walked into Pharaoh’s throne room! “Hashem, God of Israel, says: Let My people go!” Pharaoh laughed. He said no. And then he made things worse — now you have to make bricks without straw! How are you going to find straw?

Scene 1: Bricks Without Straw

Challenge: Find straw! (Medium — target 7)

- Scouts: search fields (QUICK) • Shepherds: check animal pens (WISE)
- Storytellers: convince a guard to look away (WISE) • Builders: muscle through (STRONG)
- Healers/Storytellers: keep spirits up (WISE, Easy — 5)

If less than half succeed, players who failed their roll lose 1 heart from the angry taskmasters.

Scene 2: Sneaking into the Palace

That night, a messenger arrives: “Moshe needs scouts to watch Pharaoh’s palace and report back. Who will volunteer?”

Stealth Mission: The whole group sneaks near the palace walls!

- Sneak past the guards: QUICK (Medium — 7). Teamwork helps!
- Overhear Pharaoh’s plans: WISE (Medium — 7)
- If spotted, run! QUICK (Easy — 5) to escape, or STRONG (Medium — 7) to bluff past a guard

Success: They learn Pharaoh is planning to increase the work. They report back to Moshe.

DM Tip: Play up the tension — torchlight, guards’ footsteps, close calls!

Scene 3: Moshe’s Visit

A stranger comes to your village. It’s Moshe! “I know things are harder now. But Hashem has promised He will take us out. I need people I can count on. Will you help when the time comes?” What do you say to Moshe?

Each player answers in character. Then:

Moshe nods. “Be ready. Hashem is about to show Pharaoh things Egypt has never seen.”

Chapter 3: The Ten Plagues

Move your token to location 3 on the map!

This is the longest and most action-packed chapter! Each plague is a mini-adventure.

Plague 1: Blood (Dam) — ■

You wake up and the Nile is RED! Blood! The water smells terrible. Egyptians are panicking. Your village well is running low... What do you do to find clean water?

Challenge — Find Water:

- Scout: search for a spring (QUICK, Medium — 7)
- Healer: purify water with herbs (WISE, Medium — 7)
- Builder: dig a new well (STRONG, Hard — 9, or Medium with help)
- Storyteller: remember an old story about a hidden oasis (WISE, Medium — 7)

Key moment: if they check their own jugs, the water is clean! The plague doesn't affect the Jewish area.

Plague 2: Frogs (Tzfardea) — ■

RIBBIT! RIBBIT! Frogs EVERYWHERE! In the ovens, in beds, jumping on your head! What do you do about all these frogs?!

Chaos Challenge: This is a comedy scene! Each player describes their frog situation.

- Catch frogs: any ability (Easy — 5). High rolls = epic frog-wrangling!
- Shepherd: lead frogs away (WISE, Medium — 7, or use Animal Friend!)
- Builder: stack barrels to trap the frogs (STRONG, Easy — 5)
- BONUS: Anyone who rolls 10+ catches the GIANT KING FROG! Describe it!

DM Tip: Ham it up. Make frog noises. Get silly. This is the fun one.

Plague 3: Lice (Kinim) — ■

The dust of the ground turns to lice! Tiny bugs everywhere — but only on the Egyptians! Pharaoh's magicians try to copy the plague with their magic and ... nothing happens. They scratch their heads (and everywhere else). One whispers: "This is the finger of God." Meanwhile, the lice are marching toward YOUR village's food stores! How do you protect the food?

Protect the Food! The lice can't hurt you but they're getting into everything!

- Builder: seal the grain storage with heavy stones (STRONG, Easy — 5)
- Storyteller: organize the village to work together (WISE, Medium — 7)
- Scout: race to move food to higher ground before the bugs arrive (QUICK, Medium — 7)
- Healer: mix a repellent from herbs (WISE, Easy — 5)
- BONUS: Anyone who rolls 10+ discovers a hidden stash of Egyptian gold coins buried in the dust! The lice dug it up!

If they save the food, they earn a **supply token** (this helps in later chapters!).

Plague 4: Wild Beasts (Arov) — ■

A terrible roar! Wild animals — lions, bears, wolves — flooding Egyptian cities! They stop at the border of your village as if blocked by an invisible wall. But an Egyptian family is trapped with a lion circling their house! Do you help them? How?

Rescue Mission:

- Shepherd: calm the lion (WISE, Medium — 7, or use Animal Friend!)
- Builder: create a barrier (STRONG, Medium — 7)
- Scout: distract and lead it away (QUICK, Hard — 9 — very heroic!)
- Storyteller: shout instructions to the family (WISE, Easy — 5)
- Healer: lure the lion away with herbs and food (WISE, Medium — 7)

DM Tip: Talk about showing kindness even to those who haven't been kind to you.

Plague 5: Pestilence (Dever) — ■

A terrible sickness strikes the animals of Egypt! Horses, donkeys, camels, cattle — all falling ill. Egyptian farmers watch helplessly. But YOUR animals? Perfectly fine! Not even a sniffle. Moshe sends word: "Our animals are healthy because Hashem is protecting us. Take care of them — we're going to need them for the journey ahead!" How do you get the animals ready for travel?

Prepare the Flock! Your healthy animals need to be organized for travel!

- Shepherd: train the donkeys to carry heavy loads (WISE, Medium — 7 — your moment!)
- Builder: construct travel pens and carts (STRONG, Medium — 7)
- Scout: find the best grazing route for the march ahead (QUICK, Medium — 7)
- Builder: construct sturdy travel carts (STRONG, Easy — 5)
- Healer: prepare animal medicine for the road (WISE, Easy — 5)
- Storyteller: keep count and organize which family gets which animals (WISE, Easy — 5)

Count successes — each one means better-prepared animals for the escape later!

Plague 6: Boils (Sh'chin) — ■

Painful boils break out on every Egyptian! Even Pharaoh's magicians are covered head to toe — they can barely stand, let alone do magic. The Egyptian guards have abandoned their posts, moaning in pain. Moshe sends an urgent message: "With the guards distracted, NOW is the time to move supplies to the escape route. Go!" How do you sneak the supplies out?

Smuggling Mission! Sneak supplies past the empty guard posts while no one is watching!

- Scout: sneak past the few remaining guards (QUICK, Medium — 7)
- Builder: carry heavy supply bundles and hide them along the route (STRONG, Medium — 7)
- Shepherd: lead pack animals loaded with goods (WISE, Easy — 5)
- Storyteller: coordinate the operation — who goes where (WISE, Easy — 5)
- Healer: pack medical supplies for the journey (WISE, Easy — 5)
- BONUS: Anyone who rolls 10+ finds an unguarded storeroom full of travel supplies!

Each success = one supply cache hidden along the escape route. These help in Chapter 5!

Plague 7: Hail (Barad) — ■

Massive balls of ice and FIRE rain from the sky! Fire INSIDE ice — a miracle within a miracle! Trees crack, buildings shatter! Your village is under clear skies — an invisible dome protects you. You can see the hail smashing down just steps away from your homes. Suddenly, a gust of wind blows part of your village's fence down — the protective barrier flickers! Hailstones start bouncing into your area! What do you do?

Defend the Village! The barrier is mostly holding but you need to patch the gaps!

- Builder: rebuild the broken fence FAST (STRONG, Medium — 7)
- Scout: sprint to move children and elderly away from the gap (QUICK, Medium — 7)
- Builder: stack stones and wood into a shield wall (STRONG, Medium — 7)
- Shepherd: herd the panicking animals to safety (WISE, Medium — 7)
- Healer: tend to anyone hit by a stray hailstone (WISE, Easy — 5)
- Storyteller: rally everyone to work together (WISE, Easy — 5, gives +1 to another player!)
- Fail a roll = lose 1 heart from a bouncing hailstone!

Once they patch the gaps, the dome stabilizes. Describe the kids picking up a hailstone: fire and ice together, not melting. A miracle in their hands!

Plague 8: Locusts (Arbeh) — ■

The sky turns black — not clouds, but LOCUSTS! Millions of them! They devour every plant, every crop. The land will have no food. Moshe sends word: hide away emergency food supplies for the journey ahead! Quick — how do you save the food before the locusts eat everything?

Supply Run: The players must gather and protect food!

- Scout: race to grab supplies before locusts eat them (QUICK, Medium — 7)
- Builder: seal the storage rooms tight (STRONG, Medium — 7)
- Shepherd: protect the animals' feed (WISE, Medium — 7)
- Storyteller: organize the community effort (WISE, Medium — 7)
- Healer: identify which plants are still safe (WISE, Easy — 5)

Count successes: each success = one supply bundle saved. They'll need these later!

Plague 9: Darkness (Choshech) — ■

The sky goes completely dark. The darkest dark you've ever felt. So thick you could touch it. Egyptians can't move — frozen in place. But you can see! A warm, strange light fills your homes. This is your chance to scout the escape route while no one can stop you. How do you explore the path out of Egypt?

- Scouts lead the way (QUICK, Easy — 5)
- Wise characters map the route (WISE, Medium — 7)
- Everyone can hide supply bundles along the path (STRONG, Easy — 5)
- Storyteller: mark the trail with memorable landmarks (WISE, Easy — 5)

BONUS: If they succeed here, they get **+1 to all rolls** during the escape in Chapter 5! They know the way!

***DM Tip:** This is spooky and exciting. Describe the eerie silence, the warm glow, the frozen Egyptians like statues.*

After Nine Plagues...

Pharaoh is stubborn. After plague after plague, Egypt is in ruins, but he won't let you go. Then Moshe delivers the most serious warning yet: "Hashem says: one final plague is coming. After this, Pharaoh will not just let us go — he will beg us to leave. Listen carefully to what you must do tonight..."

Chapter 4: The Night of Pesach

Move your token to location 4 on the map!

Moshe's instructions are clear: every family must take a lamb, roast it over fire, and eat it with matzah and bitter herbs. You must put blood on the doorposts and top of your door frame. Then stay inside. Do not leave until morning. Tonight, Hashem Himself will pass through Egypt — and the tenth plague will finally make Pharaoh let us go. The sun is setting fast — what do you do to get everything ready in time?

Scene 1: The Great Preparation

Team Challenge — Race Against Sunset! Each player picks a task:

Task	Roll	Target	Notes
Prepare the lamb	STRONG	5	Shepherds auto-succeed
Gather bitter herbs	WISE	5	Healers auto-succeed
Bake the matzah FAST	WISE	7	No time to rise!
Mark the doorposts	STRONG	5	Everyone participates
Warn every family	QUICK	7	Sprint through the village!
Prepare travel packs	WISE	7	For the escape tomorrow!

Make the matzah-baking feel urgent — if they fail, the dough starts rising and they must quickly flatten it! Let them try again.

DM Tip: Auto-succeed here is not the same as using their Special Ability — it just reflects their expertise. Their Special is still available this chapter.

Scene 2: The Door

The blood is on the doorframe. Your family sits together — eating the korban, the matzah, the maror. Everyone is dressed in traveling clothes, sandals on, walking sticks in hand. Ready. But wait — you notice your neighbor's door has no blood on it! They haven't finished! What do you do?

- Scout: sprint to bring them supplies (QUICK, Medium — 7)
- Builder: quickly mark the door (STRONG, Easy — 5)
- Storyteller: guide them through the steps (WISE, Easy — 5)

Then everyone gets inside before the deadline.

Scene 3: Waiting

Inside. Quiet. Then you hear it — a sound like wind, but not wind. Something passing over. The blood on the doorframe glows faintly. You feel safe inside. Protected. And then... a great cry rises across Egypt. The tenth plague has arrived. It is the last straw. What are you feeling right now?

Then — pounding on your door. Not threatening, but desperate. Egyptian voices: "Go! Leave! Take everything and GO! Pharaoh says you're free!"

Chapter 5: Run!

Move your token to location 5 on the map!

The whole nation is moving in the middle of the night! Families pouring out, carrying everything. The dough hasn't risen — you tie bowls to your backs. Egyptian neighbors press gold and silver into your hands, begging you to leave quickly. MOVE! What do you grab before you run?

Scene 1: Grab and Go!

Speed Challenge: Each player rolls QUICK (Easy — 5) to grab their things. Add +1 if they scouted during Darkness!

- 10+: grab something amazing — a weapon, a beautiful cloth, a mysterious scroll
- 7–9: grab everything you need, nice and clean
- 5–6: you make it but drop something funny (describe it!)
- Under 5: you trip on the way out but your friends catch you!

Scene 2: Stuck Cart!

On the road, a family's cart has gotten stuck in the mud. An elderly grandmother is inside, can't walk well. The crowd is surging forward. If you stop, you'll fall behind. If you don't, she's stranded. What do you do?

Rescue Challenge:

- Builder: lift the cart (STRONG, Medium — 7)
- Scout: find a better path (QUICK, Medium — 7)
- Healer: calm the injured donkey (WISE, Medium — 7)
- Shepherd: calm the panicking donkey (WISE, Easy — 5)
- Storyteller: rally nearby people to help push (WISE, Easy — 5)

The grandmother blesses them and gives them her special walking stick — it's sturdy enough to be used as a tool or weapon!

Scene 3: The Crossroads

Dawn breaks. You reach a crossroads. The short path goes near the Plishtim — soldiers. The long path goes toward the sea. A pillar of cloud appears in the sky, moving toward the sea... Which way do you go?

Decision: Let the players debate! Either way, the cloud leads them toward the sea.

Scene 4: He's Coming

You've been walking for days. Then a scout races back, face pale: "Pharaoh changed his mind! His chariots are coming! Hundreds of them!" Ahead: the sea. Behind: the army. You're trapped. What do you do?

Chapter 6: The Sea

Move your token to location 6 on the map!

Chariot wheels behind you. The sea before you. People crying, praying. Some angry: "Why did you bring us here to die?!" Moshe raises his staff... A mighty wind blows. The sea starts to SPLIT! Two walls of water rise up. A path of dry land appears. "GO!" Moshe shouts. "GO NOW!" You charge onto the sea floor — how do you lead the way?

Round 1 — Charge!

Every player rolls QUICK (Medium — 7, add +1 if they scouted in Darkness). Describe walls of water, fish swimming in them, dry seabed under their feet. Anyone who rolls 10+ sees something incredible in the water wall!

Round 2 — Help the People

Elderly, families with babies, loaded carts — struggling on the seabed.

- Builder: carry people (STRONG, Medium — 7)
- Healer: help the exhausted (WISE, Easy — 5)
- Scout: guide people through (QUICK, Medium — 7)
- Storyteller: encourage the frightened (WISE, Easy — 5)
- Shepherd: keep animals moving (WISE, Medium — 7)
- Storyteller: calm the panicking cart driver (WISE, Medium — 7)
- Grandma's walking stick from Ch 5 gives +1 to any roll here!

Round 3 — The Army!

The chariots race into the sea path! Wheels stick in the mud. Horses panic. Then Moshe stretches his hand. The walls tremble... lean... and with a thunderous CRASH, the sea closes! You watch from the far shore. What does your character do when they see this?

No roll needed — just let them react.

Round 4 — The Last Sprint

Final Action Beat: As the sea closes, waves surge forward! The last few people are still on the path!

- Each player: QUICK (Hard — 9) to pull one more person to safety!
- Teamwork +2 applies — grab hands and pull together!
- Everyone makes it. They always make it. But describe the close call!

Chapter 7: Freedom!

Move your token to location 7 on the map!

You stand on the far shore. Morning sun on your face. The water is calm, as if nothing happened. Behind you: Mitzrayim, slavery. Ahead: the desert, and beyond it, the Land Hashem promised. You are free. How do you celebrate?

Scene 1: Shirat HaYam

Moshe and the people sing! Miriam takes a tambourine and leads dancing!

Celebration Roll! Each player rolls any ability (Easy — 5):

- 10+: Something legendary! Lead a cheer so loud it echoes off mountains!
- 7–9: Incredible dancing, singing, pure joy
- 5–6: Happy tears — so overwhelmed they just hug everyone
- Under 5: They try to dance and trip, everyone laughs, it's perfect

Scene 2: The Challenge of Freedom

Hours later, walking through the desert, the people are thirsty. You find a pool of water — but it tastes bitter! “Marah!” people cry. “The water is bitter!” How do you fix this?

Last Challenge: Moshe asks for help finding a solution!

- Healer: identify a purifying plant (WISE, Medium — 7)
- Builder: dig channels to filter the water through sand (STRONG, Medium — 7)
- Scout: search for another water source (QUICK, Medium — 7)
- Storyteller: remind everyone of Hashem's promise (WISE, Easy — 5)

Moshe throws a special tree branch into the water and it becomes sweet. The players' efforts helped too! The lesson: freedom has challenges, but you face them together.

Scene 3: Looking Forward

Moshe gathers everyone. “The journey isn’t over. We have far to go. But Hashem is with us. At a mountain in the desert, He wants to give us something special — a Torah.” He looks at your group. “Am Yisrael needed heroes like you.” What does your character want to do now that they're free?

Character Sheets

Print the following pages. Each player gets the sheet matching their character type. **No writing needed!** Use small tokens (coins, beads, candies, checkers) on the circles to track hearts and special ability usage.

Setup: Place a token on each of the 5 heart circles. When hurt, remove a token. When healed, put it back. When you use your special ability, place a token on the current chapter's circle.

THE BUILDER (Boneh)

ESCAPE FROM EGYPT

You've spent years building Pharaoh's cities. You're incredibly strong and know how structures work.
